

Landmark Properties of Suffolk

We are All American homebuilders, only one on Long Island; Mark Baisch (President /Owner of Landmark Properties of Suffolk). As a member of Long Island Builders Institute and Board Member of Long Island Home Builders Care, he donated the property and was the General Contractor to build the first Veterans Home. It's a new program to give back to our returning Veterans by offering them affordable housing. He has since implemented and coordinated all our vendors to supply and build Landmark Homes with 100% All American Made products, the first in New York State. "We are 100% committed to the economic recovery of our country," says Baisch. "If we all do what we can, we're sure to make a significant positive impact." All our vendors were eagerly on board with the exciting prospect of being involved in both projects.
